

Liquid Fully Chelated Lignin Fertilizer™

LIG-NIT

ANALYSIS	w/v%
Nitrogen (as ammonium ligno-azide)	32.0

Our modified low molecular weight organic complex provides safe & efficient absorption of applied nutrients.

COMPATIBILITY:

This product is compatible with all SJB 'LIG' chelates. To ensure chelate efficacy it is important that tank water be buffered below pH 7.0. Contact SJB Tech Support before mixing with other nutrient or pesticide sprays.

GENERAL INFORMATION:

This product is complexed with naturally occurring Lignin compounds to provide efficient foliar & root absorption with maximum crop safety.

CONDITIONS OF SALE:

The Manufacturer warrants that this chelated nutrient product contains the active constituents and chelating compounds, as specified, and it is for the purpose of supplying the appropriate major nutrient or correcting micro-nutrient deficiency, when used in accordance with directions under normal conditions of use. No one, other than the officer of the Manufacturer, is authorised to make any warranty, guarantee or direction concerning the product as the time, place, rate of application and other conditions are beyond the control of the Manufacturer.

APPLICATION RATES:

General Rate: Maintenance 5-10 L/ha. Deficiency or adverse growing conditions: 10-20 L/ha.
Cereals: 5-10 L/ha as needed or 2 L/ha 12 weeks after sowing to lift grain protein. **Canola:** 10 L/ha prior to flowering & repeat as required. **Cotton:** 5-10 L/ha as required. **Glasshouse:** 1 L/100 L water. **Potatoes:** 2 early sprays @ 20 L/ha & repeat if crop needs nitrogen late in the season. **Vegetables:** 5-10 L/ha every 14 days.

SAFETY DIRECTIONS:

Avoid contact with skin and eyes and avoid breathing in vapour or spray mist.
