Liquid Fully Chelated Lignin Fertilizer™

LIG-CALCIUM + B®

ANALYSIS	w/v%
Calcium (as calcium lignosulphonate)	6.0
Boron (as ammonium ligno-borate)	2.0

Contains modified organic & glycine chelates for superior crop safety & enhanced fruit quality.

COMPATIBILITY:

This product is compatible with all SJB 'LIG' chelates. To ensure chelate efficacy it is important that tank water be buffered below pH 7.0. Contact SJB Tech Support before mixing with other nutrient or pesticide sprays.

GENERAL INFORMATION:

This product is chelated (protected from becoming unavailable) with naturally occurring Lignin compounds to provide maximum foliar & root absorption.

CONDITIONS OF SALE:

The Manufacturer warrants that this chelated nutrient product contains the active constituents and chelating compounds, as specified, and it is for the purpose of supplying the appropriate major nutrient or correcting micro-nutrient deficiency, when used in accordance with directions under normal conditions of use. No one, other than the officer of the Manufacturer, is authorised to make any warranty, guarantee or direction concerning the product as the time, place, rate of application and other conditions are beyond the control of the Manufacturer.

APPLICATION RATES:

General Rate: 5.0 L/ha.

Almonds: 2.5 L/ha at flowering & fruit set. **Apples:** Total of 5-6 sprays @ 5 L/ha starting at fruit set every 14-21 days. **Avocado/Mango:** 5 L/ha at fruit set & repeat every 14-21 days until harvest. **Potatoes:** 7.5 L/ha at tuber set & repeat 4 weeks later. **Stone Fruit:** 3-5 sprays @ 5 L/ha from petal fall to stone hardening. **Strawberries:** 5 L/ha every 7 days over the leaf. **Tomato/Capsicum:** 5 L/ha every 7-14 days from early vegetative stage. **Vegetables:** 5 L/ha every 14 days. **Wine grapes:** 5 L/ha pre-flowering, fruit set & pre-bunch closure.

SAFETY DIRECTIONS:

Avoid contact with skin and eyes and avoid breathing in vapour or spray mist.
