Liquid Fully Chelated Lignin Fertilizer™

Calcium PLEX

ANALYSIS	w/v%
Calcium (as calcium lignosulphonate)	7.5

Soil available calcium chelate without nitrogen for maximum fruit quality & shelf-life.

COMPATIBILITY:

PLEX formulations are compatible with each other when diluted. Please contact SJB Tech Support before mixing PLEX products with non-PLEX fertilizers.

GENERAL INFORMATION:

This product is chelated (protected from becoming unavailable) with naturally occurring Lignin compounds to provide maximum foliar & root absorption.

CONDITIONS OF SALE:

The Manufacturer warrants that this chelated nutrient product contains the active constituents and chelating compounds, as specified, and it is for the purpose of supplying the appropriate major nutrient or correcting micro-nutrient deficiency, when used in accordance with directions under normal conditions of use. No one, other than the officer of the Manufacturer, is authorised to make any warranty, guarantee or direction concerning the product as the time, place, rate of application and other conditions are beyond the control of the Manufacturer.

APPLICATION RATES:

General Rate: 10 L/ha every 7-14 days up the drip. Also use in combination with LIG-CALCIUM + B @ 5-7.5 L/ha over the leaf.

SOIL APPLICATION: Capsicum & Tomato: 10 L/ha every 7-14 days. **Cucurbits:** 10 L/ha every 10-14 days. **Strawberries:** 10 L/ha every 7-14 days. **Tree crops:** 10 L/ha every 14-21 days. **Vegetables:** 10 L/ha every 10-14 days.

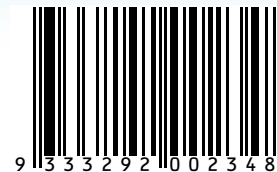

SAFETY DIRECTIONS:

Avoid contact with skin and eyes and avoid breathing in vapour or spray mist.
