

# LIG-K + BORON

"For Bigger & Better Quality Potatoes"  
The Growers Choice

## Chelated Foliar Potassium Formulation With High Plant Availability

- ▶ Adds weight to tubers (increases specific gravity)
- ▶ Better tonnage and more even tuber size (better pack-out)
- ▶ Built-in binder sticks nutrients to leaves under heavy irrigation
- ▶ LIG-K + BORON contains no harmful chloride
- ▶ In quick growing conditions, it gives a faster response & is more efficient than soil applied potassium
- ▶ Boron enhances tuber filling & produces stronger, whiter skins
- ▶ Potassium & boron produce a stronger, healthier plant
- ▶ LIG-K + BORON is compatible with pesticides

**LIG-K + BORON promotes even tuber development & will balance plant nitrogen levels for maximum tuber quality!**

### Application

**10 L/ha when tubers are half grown (40mm) & repeat 2-3 Weeks later. If applying through pivot increase rate to 20 L/ha.**
