CR K-SUL®

Your alternative potassium sulphate option.

GUARANTEED ANALYSIS (w/v)

| | |
|-----------------|-----------|
| CR K-SUL | |
| Potassium | 21% |
| Sulphur | 11% |

APPLICATION RATES

| | |
|-----------------|---------------------------|
| CR K-SUL | Potassium Sulphate |
| 10 L ≈ | 25-30 kg (Fertigation) |

- ▶ Provides controlled release of nutrients as required by the crop
- ▶ Binding properties that reduce leaching of potassium on sandy soils
- ▶ Higher nutrient efficiency compared to granular forms
- ▶ Nutrients remain in plant available form regardless of soil conditions
- ▶ Easy to use liquid formulation
- ▶ CR polymers improve efficiency of other soil fertilizers
- ▶ Cost competitive per hectare with granular equivalents
- ▶ Non-toxic to soil microbes
- ▶ Enhances crop quality & production

Key foliar sprays for enhanced crop production

GREENA (11-0.5-6 + Awaken® & NutriSync D)
Complete nutrient spray with Inositol & Awaken chemistry.

VLP (10-2-7 + Mg & traces)
Promote growth, aid stress recovery. Ideal for young tree development.

LIG-ZINC + BORON (Zn 6%, B 2%)
Improve growth & fruit set. Excellent chemical compatibility.

LIG-MAGNESIUM (Mg 10%)
High analysis magnesium chelate for enhance growth & fruit colour.

LIG-CALCIUM + B (Ca 6%, B 2%)
Premium calcium chelate for optimum quality & shelf-life.

LIG-K + BORON (K 10%, B 2%)
Increase fruit size, sugar levels & enhance fruit colour.
