

CR NPKomplete

Stay in Control of your soil nutrients

GUARANTEED ANALYSIS (w/v)

Nitrogen 10%	Iron 0.5 g/L
Phosphorous 4%	Zinc 1.0 g/L
Potassium 8%	Copper 0.25 g/L
Sulphur 3%	Boron 0.1 g/L
Magnesium 1%	Molybdenum 0.05 g/L
		Manganese 0.5 g/L

APPLICATION RATES

Vegetable Crops:
Banded: 75-100 L/ha
Vines & Tree Crops:
Fertigation: 25-50 L/ha

CR NPKomplete is a new liquid soil fertilizer that provides controlled release of nutrients via microbial decomposition. The unique tri-polymer NPK formulation is first utilized as an energy source by soil microbes and nutrients are then released in plant available form. The trace elements are all fully chelated to provide maximum availability regardless of soil conditions. CR NPKomplete has several advantages:

- ▶ Provides short & medium term release of nutrients
- ▶ No leaching or volatilization of nitrogen
- ▶ Improves fertilizer efficiency by reducing leaching losses
- ▶ Remains in a plant available form regardless of soil conditions
- ▶ Liquid formulation suitable for fertigation & foliar application
- ▶ Promotes microbial proliferation, humus production & nutrient release
