

# SPECIALTY LIQUID NUTRIENT PRODUCTS

## CR MKP

Phosphorous 11%, Potassium 13%, Magnesium 1%

- ▶ Control Release polymer provides higher nutrient efficiency compared to conventional P & K fertilizers (eg. MKP)
- ▶ Liquid formulation ideal for fertigation
- ▶ Includes Mg & trace elements to enhance crop growth
- ▶ Binds to soil colloids/particles to minimize leaching
- ▶ Ideal for crops that have small root systems that limit nutrient uptake or where soil availability is limited
- ▶ Perfect nutrient combo for improved crop quality & yield
- ▶ Cost effective alternative to granular forms

### APPLICATION

Apply 10 L/ha prior to flowering & repeat every 14-21 days during fruit development. As a general rule CR MKP @ 10 L will replace 25 kg of granular MKP.
