

Liquid Organic Carbon Soil Conditioner

LIG-HUMATES PLUS

Includes 5 species of Bacillus

ANALYSIS	w/v%		w/v%		w/v%		w/v%
Humic & Lignosulphonic Compounds	46.0	Sulphur (as sulphate)	2.0	Kelp	5.0	Fish Hydrolysate	2.0
Potassium	4.0	Organic Carbon	15.0	Aminos	1.0	Molasses	2.0

Improves soil structure, water & nutrient holding capacity, as well as stimulating biological activity.

COMPATIBILITY:

This product is compatible with all SJB 'LIG' & 'PLEX' chelates, as well as most 'CR' soil polymers. Do not mix concentrates together but ensure other products are diluted before adding LIG-HUMATES. Contact SJB Tech Support before mixing with other nutrient or pesticide sprays.

GENERAL INFORMATION:

This product contains naturally occurring Lignin compounds & humic acids that provide enhanced moisture and nutrient retention in soils as well as improved fertilizer efficiency.

CONDITIONS OF SALE:

The Manufacturer warrants that this humate product contains the active constituents and compounds, as specified, and it is for the purpose of supplying the humic substances for improved soil function, when used in accordance with directions under normal conditions of use. No one, other than the officer of the Manufacturer, is authorised to make any warranty, guarantee or direction concerning the product as the time, place, rate of application and other conditions are beyond the control of the Manufacturer.
