

LIG-K + BORON

K 10% + B 2%

- Unique potassium plus boron complex
- Compatible with agri-chemicals
- Available potassium for boll filling & to reduce premature senescence
- Complexed boron to enhance flowering & fibre quality

Other cotton foliar products include: VLP (10-2-7 + TE), LIG-ZINC + BORON.

Yield results from LIG-K + BORON trial in cotton at Wee Waa 2005-06.

Treatment	Fruit Factor	Yield (38% turn-out)	Gross Margin @ \$600/bale	Gross Margin @ \$400/bale	Net profit incl cost of LIG-K + B @ \$600/bale	Net profit incl cost of LIG-K + B @ \$400/bale
