

LIG-PASTURE

Enhancing Pasture Quality & Stock Health

LIG-PASTURE has been specifically formulated for pastures with stock health in mind. It supplies a balanced range of trace elements plus nitrogen & sulphur while employing a unique organic chelating agent to optimize foliar absorption & nutrient availability to the plant. Some of the advantages of LIG-PASTURE include:

- Immediate foliar uptake and rain-fastness
- Improve pasture quality & reduce the need for mineral supplements
- Promotes root uptake of soil nutrients (ie. Improves fertilizer efficacy)
- Supplies trace elements (Zn & Co) essential for stock reproduction
- Boron enhances calcium uptake & clover production
- Easy to apply liquid formulation
- A balance of essential nutrients for good pasture & stock health

Application

2 L/ha every month or after each grazing/cut. Minimum of 10 L/ha during the season.

Analysis

N 2.0%, S 3.0%, Zn 2.0%, Cu 1.0%, B 0.5%, Mo 0.1%, Co 0.05%.

Container Sizes

LIG-PASTURE is available in 20L, 200L & 1000L returnable shuttles.

Other Products

Ask us about our foliar nutrient alternatives such as PASTURE CAL (Ca 8%, N 5%, Zn 0.25%, B 0.25%), LIG-NIT (N 32%), VLP (10-2-7 + trace elements).
