

LIG-POLYPHOS[®]

**AG~NUTRI
PTY. LTD.**

"Phosphorous you can depend on for crop quality"

Superior plant availability through leaf & fertigation on adverse soils

VINES

For quicker, more even root & cane development of young vines on low P soils & calcareous alkaline soils with high phosphate retention. Enhances fruit maturity in wine & table grapes.

Water Jetting: 5 L/1000L water with VLP @ 5 L/1000 L.

Young Vines: 2-3 sprays @ 5 L/ha during the growing season.

Mature Vines: Apply 5 L/ha prior to flowering, at Veraison & pre-harvest for colour/baume & post-harvest.

VEGETABLES & FIELD CROPS

Ideal in the early stages of plant growth for root and top development, improves fruit set and enhances vegetable quality.

Apply 10 L/ha 10 days after emergence or directly after transplanting & repeat if necessary. For tomato & fruit crops apply 5 L/ha at flowering & fruit set, & repeat application 4 weeks prior to harvest.

TREE CROPS

To promote quick & even development of young trees & improve flowering & enhance fruit ripening & colour.

Young Trees: 2-4 applications @ 5 L/ha during the growing season.

Mature Trees: Apply 5 L/ha prior to flowering & 2-3 sprays @ 5 L/ha during fruit development.
