Lignin Fertilizer™

THIO CAL B PLEX

	w/v%		w/v%		w/v%
Calcium	7.0	Sulphur	6.0	Boron	0.5%

Available calcium without nitrate for optimum fruit quality.

COMPATIBILITY:

All PLEX formulations are compatible with each other. Please contact SJB Tech Support before mixing PLEX products with non-PLEX fertilizers.

GENERAL INFORMATION:

This product is chelated (protected from becoming unavailable) with naturally occurring Lignin compounds to provide maximum foliar & root absorption.

CONDITIONS OF SALE:

The Manufacturer warrants that this chelated nutrient product contains the active constituents and chelating compounds, as specified, and it is for the purpose of supplying the appropriate major nutrient or correcting micro-nutrient deficiency, when used in accordance with directions under normal conditions of use. No one, other than the officer of the Manufacturer, is authorised to make any warranty, guarantee or direction concerning the product as the time, place, rate of application and other conditions are beyond the control of the Manufacturer.

APPLICATION RATES:

Ferigation: 10-20 L/ha. **Ground Spray:** 40 L/ha.

THIO CALCIUM PLEX (Ca 7%) is also available for use on high boron soil situations. For foliar requirements use in combination with chelated **LIG-CALCIUM + B @ 5-7.5 L/ha.**

RECOMMENDATIONS:

The PLEX range has been formulated for soil application via fertigation systems. For ground application it is recommended to irrigate after spraying THIO CAL B PLEX onto the soil.

SAFETY DIRECTIONS:

Avoid contact with skin and eyes and avoid breathing in vapour or spray mist.
