

SPECIALTY LIQUID NUTRIENT PRODUCTS

VLP + KELP

10-2-7-0.5, Mg 0.5% + Kelp 10% & traces

- ✓ **Fully Chelated:**
All nutrients are equally plant available (>85%), 5-10 times more than non-chelated products.
- ✓ **Superior Binding Properties Complement Other Chemicals:**
Assists the efficacy & rain-fastness of fungicide/insecticide cover sprays.
- ✓ **Tasmanian Bull Kelp:**
Now with added kelp to reduce crop stress & enhance plant health.
- ✓ **Compatibility & Safety:**
Excellent crop safety & compatibility with a wide range of commonly used agri-chemicals.
- ✓ **Economical:**
Easy to use, cost effective & price competitive against other similar products.

Use New VLP + KELP to improve crop growth, enhance flowering & aid recovery from stress situations.
