Liquid Fully Chelated Lignin Fertilizer™

ZINC PLEX

ANALYSIS	w/v%
Zinc (as lignosulphonate)	11.0

Soil available zinc to enhance early development & flowering.

COMPATIBILITY:

All PLEX formulations are compatible with each other except Boron PLEX & Phos PLEX (These two products should be applied separately). Please contact SJB Tech Support before mixing PLEX products with non-PLEX fertilizers.

GENERAL INFORMATION:

This product is chelated (protected from becoming unavailable) with naturally occurring Lignin compounds to provide maximum foliar & root absorption.

CONDITIONS OF SALE:

The Manufacturer warrants that this chelated nutrient product contains the active constituents and chelating compounds, as specified, and it is for the purpose of supplying the appropriate major nutrient or correcting micro-nutrient deficiency, when used in accordance with directions under normal conditions of use. No one, other than the officer of the Manufacturer, is authorised to make any warranty, guarantee or direction concerning the product as the time, place, rate of application and other conditions are beyond the control of the Manufacturer.

Australian Owned & Manufactured by SJB AG~NUTRI PTY. LTD.
